

# ILLUSTRATED PARTS CATALOG

## CRU (ELECTRIC - AC)

**APPLICABLE ON VEHICLE WITH SERIAL PREFIX FL**

## GENERAL INFORMATION

Use the Table of Contents to find the sections and pages that contain the parts and assemblies you seek. The Table of Contents lists section numbers, and under them, the individual page titles and numbers to be found in that section. The index can be used to find specific parts and assemblies. The index is divided into numerical and alphabetical listings with the page numbers in italic text.

All technical support, spare sales, and repairs are to be referred directly to Club Car, LLC, Aftermarket Services. Club Car, LLC Technical Publications must be consulted for future revision services of this manual, or if it is possible that this manual does not contain the latest revision pages.

Send written correspondence to:

Club Car, LLC  
Attention: Marketing Services P.O. Box 204658  
Augusta, Georgia 30917-4658 United States Of America

## VEHICLE MODEL AND SERIAL NUMBER

The vehicle serial number is located on a bar code decal installed near the accelerator.

1. A two-letter code that identifies the vehicle model.
2. A four-digit code that identifies the model year and production week the vehicle was assembled.
3. A unique six-digit number given to each vehicle built within a specified model year.

## LIABILITY AND VEHICLE DESIGN CHANGES

Club Car is not liable for errors in this manual or for incidental or consequential damages that result from the use of the material in this manual.

Club Car reserves the right to make design changes to vehicles without obligation to make these changes on units previously sold.

This manual is the original instructions provided by the manufacturer if in English. This manual is a translation of the original instructions if in any language other than English.

## VEHICLE MODIFICATIONS

Modifications made to vehicles or installation of accessories that are not approved by Club Car may adversely affect the safe operation and performance of the vehicle. These modifications include, but are not limited to lift kits, seating changes, increased speed and cargo capacity. Club Car does not recommend any modification of this vehicle except kits and upgrades specifically designed and offered by Club Car. However, if the vehicle is modified, the modifier shall:

1. arrange for the modification to be designed, tested and implemented by an engineer with expertise in vehicles and their safety;
2. maintain a permanent record of the design, testing and implementation of the modification;
3. make appropriate changes to the capacity, plate(s), decals, and operation and maintenance manuals; and
4. apply a permanent and readily visible label on the vehicle stating the vehicle has been modified with the date of the modification and the name of the entity that made the modification.

The entity making any modification becomes the original equipment manufacturer of the modified vehicle, assumes liability for the vehicle, and has the responsibilities listed above.

Modifications may void the warranty. Refer to the warranty for more details.

### APPROVED DEALERS AND DISTRIBUTORS

Club Car's customer support system offers fast and courteous service. Speak with your dealer or distributor for:

- Accessories
- Publications
- Replacement Parts
- Technical Advice
- Warranty Work

To find your nearest dealer or distributor:

- Visit [www.clubcardealer.com](http://www.clubcardealer.com)
- Scan the dealer locator Quick Response (QR) code

### SATISFACTION AND FEEDBACK

Your opinion is valuable to us! We are conducting a survey/seeking feedback to improve our services/products and provide you with an even better experience. By taking just a few minutes to share your thoughts, you can help shape the future of our organization and ensure that we meet your needs effectively.

You can access the survey through any internet-connected device with a web browser. The survey is available in many different languages. Scan the Quick Response (QR) code or type the web address <http://bit.ly/1w9uFMh> to complete the survey.

Thank you in advance for your time and input!

### PUBLICATION COPYRIGHT

This manual contains proprietary information that is protected by copyright. All rights are reserved. Express written consent of Club Car is necessary to photocopy, replicate, or translate this manual. The information contained in this publication is subject to change without notice.

### HOW TO READ AND UNDERSTAND THE ILLUSTRATED PARTS LIST

#### 1. Introduction

##### a. Function

- i. The function of this illustrated parts list is to show the disassembly sequence, or as nearly as possible, the parts and components of the Club Car vehicle manufactured by Club Car, LLC.

##### b. How to Use

- i. Go to the figure number for the component disassembly list.
- ii. Refer to Club Car component maintenance and service manual for maintenance operation or applicable vendor manual number(s) when such vendor manuals are referenced in the parts list.

##### c. Explanation of Parts List Data

- i. The item number agrees with the item number shown for the part in the illustration.
- ii. Parts with a dash before their item numbers are not illustrated. Alpha variant item numbers are shown with a dash before the item numbers unless the part is configured differently for the base item number.
- iii. General System
- 1) The indenture system used in the parts list shows the relationship of parts and disassemblies to the next higher assemblies or installation as follows:

1 2 3 4 5 6 7
Assembly or installation (RF) number
. Detail Parts for Assembly or Installation
. Sub-assembly
. . Detail Parts for Subassembly
. . Sub-sub-assembly
. . . Detail Parts for Sub-sub-assembly
. . . Sub-sub-assembly
. . . . Detail Parts for Sub-sub-assembly

iv. Effectivity

- 1) An entry in the effectivity code column (EFF) shows the use of the part is limited. Parts that are not usual to all configurations but apply to a coded assembly or installation (A, B, etc.) are coded with the same letter. If the part is the same for all assemblies, the effectivity column will be empty.
- 2) When changes are made which do not align with the configuration effectivities, a parenthetical note will be added to show cumulative effectivity.

v. Units for Each Assembly

- 1) A numeric entry in the Units for Each Assembly (QTY) column shows the quantity of the part used for each next higher assembly or installation.
- 2) "RF" is shown in the Units For Each Assembly column when an assembly or installation is not procurable as a spare part.
- 3) "AR" is used to show "as required" for usual hardware items with large quantities, over 99 in any one application, or for shims where quantity must be determined upon installation.

vi. Optional parts are listed as alpha variants. The alpha variant item numbers are not listed on the associated figures but are in the same location as the base item number.

vii. Attaching Parts captioned are listed following the part(s) attached and designated with the letter A in the column between the part number and part nomenclature.

viii. Special Notes

- 1) When special conditions apply, the following notes are used in the Illustrated Parts List following the nomenclature of the part:

Alternate Part ALT	NAS24654-34-23ZZ
